EXPERIENCE

Digital Media Fellow — Progress Iowa *May 2026 – Present*

Content strategy, editorial planning, and multi-channel publishing for a statewide advocacy organization

- Write and publish weekly content across three channels, turning dense policy research into plain-language posts adapted to the tone, format, and audience of each.
- Produce copy, captions, and social graphics for statewide campaigns, driving 100,000+ impressions through the Empower and Sosha amplification platforms.
- Build and distribute social media toolkits to 200+ volunteers, packaging graphics, sample captions, and posting guidance so distributed messaging stays on-message and on-schedule.
- Rebuilt the website's sign-up forms and events page so social posts lead to a clear next step, then wrote 6 visual guides, including AI-assisted editing with Claude, so staff now update the site on their own.

Design & Communications Consultant — Freelance / Contract *Jan 2025 – Present*

Content, brand, and campaign work for advocacy organizations

- Serve as primary point of contact for several organizations at once, owning intake, creative scoping, concept presentation, and delivery against two to four-week deadlines.
- Review weekly engagement data with client leads and adjust the next cycle accordingly, shifting topic mix, caption length, and post format based on what performed.
- Produce social graphics, campaign assets, and short-form video edits that hold to each client's brand voice and visual identity.
- Turn ambiguous client requests into an agreed creative brief before production begins, surfacing gaps early rather than after delivery.
- Built a reusable asset and template library that saves roughly 8 hours a week on recurring content requests.

Digital Media & Communications Intern — Greening Youth Foundation *May – Oct 2023*

- Grew Instagram accounts engaged 1,145% and reach 527% in six weeks, lifting monthly impressions from 1.2K to 7.4K, through a structured, audience-centered content plan.
- Established a visual and brand system adopted as the standard for all subsequent campaign work, replacing a rebuild-from-scratch cycle.
- Coordinated a 44-page publication documenting 30+ participant projects end-to-end, delivering against a hard conference deadline and distributing to 100+ stakeholders.

Resource Education Intern — National Park Service, Gulf Islands National Seashore *Jun – Aug 2022*

- Delivered public programming to roughly 140 visitors weekly at a federal site, adapting messaging in real time for audiences of every age and knowledge level.
- Researched the site's natural and cultural history and turned findings into storytelling-driven programming that built public awareness and supported donations.

SKILLS

- Social media management, content strategy, copywriting, storytelling, brand voice, and editorial calendars
- Graphic design and video editing with Canva, CapCut, and Figma; accessibility standards; HTML & CSS
- Engagement analytics, audience research and growth, and campaign planning
